Advantage

The Smart Space Pro system used by the Ideal L7 Pro uses dual 15.7-inch LCD dual screen with 3K resolution, supports Type-C wired projection screen, 19 speakers and 7.3.4 Dolby Panoramic sound system to provide a high-quality sound experience. In addition, the ideal L7 Pro uses a Qualcomm Snapdragon 8155 car gauge chip to ensure smooth interaction and response speed.

The Smart Space Max system on the Ideal L7 Max features three 15.7-inch LCD screens, 21 speakers, a 7.3.4 Dolby Panoramic sound system and a 3D ToF sensor. In addition, the ideal L7 Max uses two Qualcomm Snapdragon 8155 car-scale chips, and can also be directly connected to Nintendo Switch and AR glasses through a line.

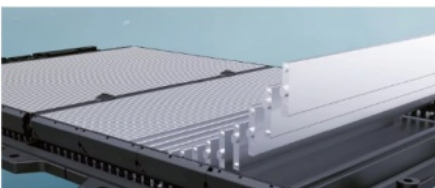

In terms of intelligence, the ideal L7 Pro will be equipped with the ideal AD Pro intelligent driving assistance system as standard, and will become the first model in the world to use the domestic intelligent driving chip Horizon Journey 5, finally with a force of 128TOPS, and standard high-speed NOA navigation assistance driving function.

The Ideal L7 Max will come standard with the Ideal AD Max intelligent driver assistance system. The dual NVIDIA Orin-X power chips in the ideal AD Max Intelligent Driving Assistance system can reach 508TOPS and efficiently process the fusion signals of high-definition cameras, lidar, millimeter-wave radar and ultrasonic sensors in real time.
