Product Description

Tank 700 Hi4T

The new car offers 12 driving/all-terrain mode options, covering 38 off-road conditions worldwide; the 3.0T Hi4-T technology architecture, which fills the industry gap in terms of large-displacement hybrid assemblies, has a combined power of 385kW, a combined torque of 800N-m, and zero-hundred-percent acceleration in just five seconds; and it is equipped with a million-dollar active suspension, which is adjustable through a combination of air springs and CDC electromagnetic dampers, thus balancing the driving experience on tarmac and unpaved roads. The body height and suspension soft and hard adjustable, so as to take into account the driving experience of asphalt highway and unpaved road.
