Product Description

Product Description

Product Parameters

Our Product Introduction

Driving seat	Left
Energy type	Electric
Body Size(mm)	4750mm*2129mm*1624mm
Wheelbase(mm)	2890
Maximum speed (km/h)	250
0-100acceleration capacity(s)	3.7
Bodywork	5doors 5seats
Maximum torque(N-m)	659
CLTC All-electric range(km)	688
Front suspension type	Double wishbone independent suspension
Rear suspension type	Multi-link independent suspension
speed changing box	Fixed gearbox
Front brake type	Ventilated disc type
Rear brake type	Ventilated disc type
Driving form	AWD
Power consumption efficiency(km/kwh)	8.45

THE ADVANTAGE OF TESLA MODEL

Y

THE ADVANTAGE OF TESLA MODEL Y

1.Big space

According to the data of the car website, the space of the Tesla trunk is as high as 971-2158L, even if it is placed in the station car, and the Model Y is only a 4.75 meters long, 1.92 meters wide and 1.62 meters high medium-sized SUV.In addition, Tesla has a large size of the front spare box, do not underestimate this front spare box, there are many unimaginable uses in actual use, some fishing friends said that they will catch the fish in front of the car, if put behind the taste will string to the car.

2.Low power consumption

The power consumption of electric vehicles is equivalent to the fuel consumption of fuel vehicles to a certain extent, in the case of positioning, size, power performance, etc., who has lower fuel consumption will obviously have more advantages, and the Model Y once ran 8.45 kilometers of power.

3.Full of power:

The Model Y is equipped with a powerful electric motor, whether it is a city shuttle or high-speed cruise, it can provide a steady stream of power output, so that your driving trip is full of fun.

4.High level of intelligence

Tesla has always been an industry leader in intelligent driving technology, and the Model Y is naturally no exception. It is equipped with a wealth of intelligent driver assistance systems, which can greatly improve the safety and convenience of driving.
